

Four-Letter Blocks puzzles combine the challenge of a crossword with the satisfaction of connecting jigsaw pieces together.

Read a clue, then find the piece with the matching number. Assemble the rest of the word by connecting other pieces. Assemble the rest of the grid with the other clues.

Comes in two styles:

1. 5 grids of four-letter blocks, plus a book of clues.
2. 2 grids in a frame: front and back. Clues are on the frame and blocks interlock.

Grids range from 7x7 to 15x15.
